Details:

We are moving to Phetchaburi and therefore have to sell our wonderful house. Three bedrooms, one living room, a big kitchen and one bathroom. Space: 100 square meters. The house is on the outskirts of Mukdahan Town. Close to everything, but still in a very quiet neighborhood. A very nice and lush garden, ideal for dogs and children. Or why not set up your hammock and just relax? The house faces north, which means shadow year round. If you fancy sunbathing that is possible too. A ceramics floor, easy to keep clean. Also a ceramics porch where you can put outdoor furniture and relax with a beer after work. Nice neighbors who like to keep the street clean and safe. Mukdahan is right now a boomtown, and it is difficult to find nice houses in this area. The house is available immediately.
