Details:

We are moving to Phetchaburi and therefore have to sell our wonderful house. Three bedrooms, one living room, a big kitchen and one bathroom. Space: 100 square meters. The house is within the city limits of Mukdahan Town. Close to everything, but still in a very quiet neighborhood. Why not set up your hammock and just relax? The house faces north, which means shadow year round. If you fancy sunbathing that is possible too. A ceramics floor, easy to keep clean. Also a ceramics porch where you can put outdoor furniture and relax with a beer after work. Nice neighbors who like to keep the street clean and safe. Mukdahan is right now a boomtown, and it is difficult to find nice houses in this area. The house is available immediately.
