Phone:

Details:

This swaddle keeps the baby snug at night and also helps prevent them from turning on to their stomach (reduces risk of SIDS). With venting to keep the baby cool. Very lightly used in excellent condition.

Fabric is light and breathable, ergonomically shaped with a 'hip healthy' design. Mild compression mimics the sensation of touch and an arms-free interior allows for self-soothing in the Hands Over Heart™, a recommended sleep position. One step swaddling with multi-dimensional stretch and 2-way zipper to prevent unraveling throughout the night. The perfect stretch for baby's needs. Cotton/Spandex blend.
