Details:

Selling Vibram KSO Evo "barefoot" running shoes, size 46.

Bought these last month in the wrong size due to bad advice from the sales rep.

I went for one short run (with socks) and quickly realized they wouldn't work out.

I have since cleaned them, put them back in their box and bought another pair size 44.

Paid EUR 99.00 new (THB 4,000) and now selling them at a discount because I have no use for them.
